TimeTrack⏱

Turn Your Time into Productivity with TimeTrack⏱

Smart insights. Better focus. Real results.

TimeTrack

TRACK TIME. BOOST PRODUCTIVITY.

Presented by: Kalyani

The Problem:

- 📱 Constant distractions (social media, phone)
- ⏳ No clear idea where time goes
- ❌ No productivity tracking
- 🚫 Procrastination & delayed starts
- Difficulty starting tasks (people plan work but delay starting)
- 80% of students struggle with procrastination
- Employees lose about 2–3 hours/day due to distractions

Target Customers 👥

- **End users:**
  - Individuals using the app daily
  - Students
  - Freelancers
  - Companies for employee productivity tracking
- **Paying customer:**
  - Students (Premium Features)
  - Freelancers
  - Companies (Employee Productivity Tracking)

The Solution

- TimeTrack doesn’t just track time — it helps you use it better
- Bridges the gap between planning and action

Features:

- ⏱️ Auto-tracks daily activity
- 📊 Actionable insights
- 🤖 Smart recommendations
- ⏰ Timely reminders
- 🎯 Goal Setting

Impact:

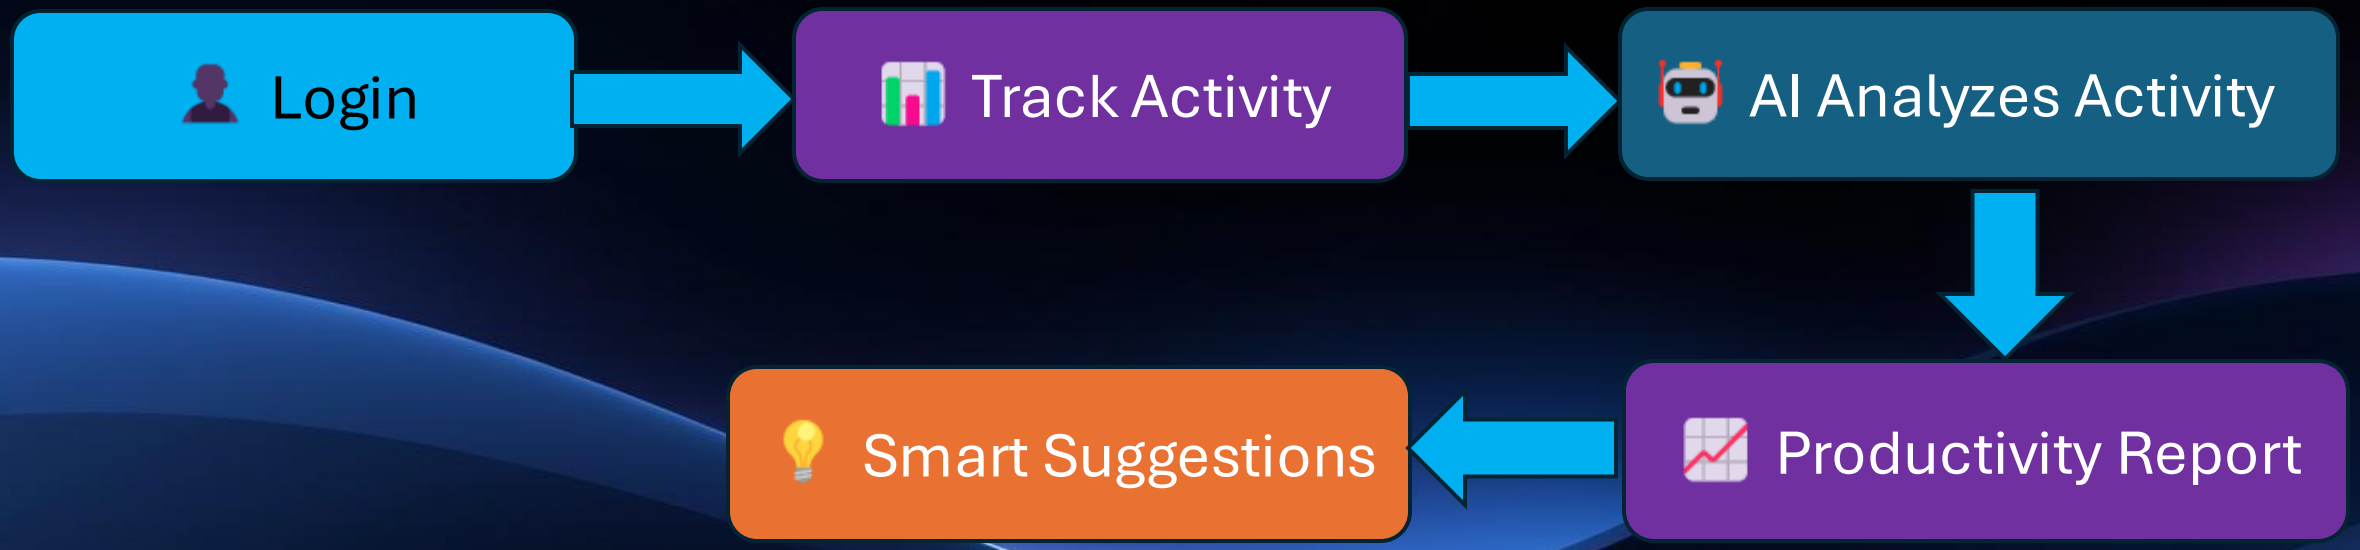
- For users:
  - Better focus, Improved productivity
- For companies:
  - Employee performance tracking

TimeTrack is a smart productivity app that:

- Tracks how users spend their time
- Analyzes daily productivity patterns
- Provides AI-based suggestions
- Sends reminders to stay focused

Goal: Bridge the gap between planning and action

How TimeTrack Works



Example:

- Study Time: 3 hours
- Phone Usage: 2 hours

Suggestion: *Reduce Phone Usage*

Smart Reminder Sent to the User
